Notes:

Unless otherwise noted above, each permit applicant or permit holder must possess two certificates (cards), one for the appropriate First Aid course and one for the appropriate CPR/BLS course.

It is the responsibility of the course provider to contact Utah State Parks and Recreation to request a review of their respective First Aid course. In some cases, this responsibility may fall upon the course sponsor, the outfitting company sponsoring the guide or vessel operator, or the individual guide or vessel operator.

R651-206-2(1)(g)(i): “For River Guide 1 and 2 Permits, the first aid card or certificate must be issued for an American Red Cross “Emergency Response” course or an equivalent course from a reputable provider whose curriculum is in accordance with the USDOT first Responder Guidelines or the Wilderness Medical Society Guidelines for Wilderness First Responder.” As a general guideline, courses that are taught with less than 40 hours of classroom and skills instruction will not be accepted.

R651-206-2(1)(g)(ii): “For River Guide 3 and 4 Permits *and Vessel Operator Permits*, the first aid card or certificate must be issued for an American Red Cross “Standard” or “Basic” first aid course, or an equivalent course from a reputable provider.

R651-206-2(1)(g)(iv): “First aid and CPR cards or certificates must include, but not be limited to, the following information: name or title of the course; course provider and contact information; length of certification (*date of certification and length of certification or the date of certification expiration*); name and signature of the person certified; and signature of the course instructor.

Information for each First Aid course must be submitted to Utah State Parks and Recreation for an acceptance review a minimum of once every ten (10) years.

The following information must be submitted to Utah State Parks and Recreation for review of a first aid course:

Name or title of the course;

Course provider and necessary contact information;

List of the required text book(s);

Course curriculum. This may include course content, course outline and/or course syllabus;

Successful course completion requirements, i.e., skills assessments, and minimum passing score on the course exam;

Length of course, including attendance requirements;

Length of original certification period;

Re-certification requirements; and,

A sample course completion certificate (card).
